

Enteric Pathogen Transport Medium

A Cary-Blair modified transport medium suitable for maintenance and enumeration of fecal microorganisms, at room temperature

EPT , 15 ml, 30 ml vials, polypropylene	100/cs	EPT-100
EPT (2 units) & BAG , 15 ml, 30 ml vials, polypropylene	50/cs	EPT-100-2
EPT (3 units) & BAG , 15 ml, 30 ml vials, polypropylene	50/cs	EPT-100-3
EPT , 45 ml, 90 ml container, polypropylene	100/cs	EPT-100C
EPT WITHOUT LABEL , 15 ml, 30 ml vials, polypropylene	100/cs	EPT-101
EPT , 15 ml, 30 ml vials, polypropylene	25/box	EPT-25
EPT & BAG KIT , 15 ml, 30 ml vials, polypropylene	25/box	EPT-25K
EPT/SAF & BAG , 15 ml, 30 ml vials, polypropylene	50/cs	EPT/SAF-50

SAF Fixative (Sodium Acetate Formalin)

Preserve fecal specimens for all intestinal parasites, exam by wet mount, concentration and permanent stain procedures.

SAF , 15 ml, 30 ml vials, polypropylene	100/cs	SAF-100
SAF , 45 ml, 90 ml container, polypropylene	100/cs	SAF-100C
SAF , 15 ml, 30 ml vials, polypropylene	25/box	SAF-25
SAF & BAG, BULK , 45 ml, 90 ml container, polypropylene	25/box	SAF-25H
SAF & BAG , 45 ml, 90 ml container, polypropylene	25/box	SAF-25T
SAF	4 L bottle	SAF-4L

Saline 0,85%

Transport of fecal specimens for wet mount exam, especially for motility.

SALINE 0,85% , 15 ml, 30 ml vials, polypropylene	100/cs	SA-100
---	--------	--------

Formalin 10% Neutral

Preserve fecal specimens for all intestinal parasites, exam by wet mount, and concentration procedures.

FORMALIN , 15 ml, 30 ml vials, polypropylene	100/cs	FN-100
---	--------	--------

Formalin 10% Buffered

Preserve fecal specimens for all intestinal parasites, exam by wet mount, and concentration procedures.

FORMALIN , 3 ml, 17 X 55 mm	500/cs	FO-03
FORMALIN , 20 ml, 40 ml container, polypropylene	150/cs	FO-20
FORMALIN , 45 ml, 90 ml container, polypropylene	100/cs	FO-45

PVA Fixative (Poly Vinyl Alcohol)

Preserve fecal specimens for all intestinal parasites and for a number of permanent staining procedures.

PVA , 15 ml, 30 ml vials, polypropylene	PVA-100
PVA WITHOUT LABEL , 15 ml, 30 ml vials, polypropylene	PVA-101

Vial

Vial, 30 ml, with spoon with or without label, sterile or non sterile, for collection and transport of fresh fecal specimen. 200/bag.

VIAL STERILE , polypropylene	CUC-200S
VIAL , polypropylene	CUC-202

Kit

Ova and Parasites Concentration System in fecal specimen. 50/cs

EACH KIT CONTAINS: PT-50

- Funnel/Filter
- Centrifuge tubes, 15 ml, polypropylene, molded-in grads with plug cap
- Surfactant Triton X-100
- Applicators
- Ethyl Acetate Reagent, 250 ml

EACH KIT CONTAINS: PT-50V

- Funnel/Filter
- Centrifuge tubes, 15 ml, polypropylene, printed grads with screw cap
- Surfactant Triton X-100
- Applicator
- Ethyl Acetate Reagent, 250 ml
